## PROFESSIONAL OBJECTIVE

My passion for information technology started when I was very young and was the clear choice for study and a career. To build a career in the field of IT and Computer Science I seek a role to grow both professionally and practically. I want to utilize my knowledge for the betterment of the company and my personal growth. Professionally capable of working independently with minimum supervision as well as in a team as long as daily goals are clear and fulfilled. A strong leader of complete integrity with excellent communication skills and strong academic record, who is technically sound, team-player, bright, fearless, passionate, goal oriented, customer focused, respectful, innovative, flexible, sustainable, adaptable in every environment and is keen to grow further as a future leader in the industry. Aims in giving exceptional work output in given deadlines along with Work, Health & Safety requirements. Currently living in Melbourne and waiting for the right opportunity
